Molise on the web with a consumer website

The new tourism website of the Molise Region, www.viaggiomolise.it, is now online. There are 38 municipalities with a descriptive profile, created as a type of mini tourism guide as well as 12 accommodation facilities with more than 550 beds, distributed throughout the region, for which services and prices are indicated. The website is translated into English and Spanish, and the objective is to open Molise up to the international tourism market, presenting its beauties and marketing the services offered by its tourism enterprises.
